

BRIGHT TV MIND MAP

STEP 0: UNDERSTANDING THE BUSINESS REQUIREMENTS

CASE STUDY: BrightTV (Viewership Analysis)

BrightTV's CEO has an objective to grow the company's subscription base for this financial year. He has approached you to provide insight that would assist CMO (Customer Value Measurement) team in reaching this year's objective.

The dataset attached contains information on the user profiles and viewer timeslots for BrightTV.

Viewer prepares a 20 min presentation covering the following topics:

- Provide insight on user and usage trends of BrightTV.
- What type of features influence consumption?
- What content would you recommend to increase consumption on the days with low consumption?
- What type of initiatives would you recommend to further grow BrightTV's User base.

Notes:

Data driven questions

- Times and dates in the dataset are supplied in UTC and should be converted to SA time.
- Consumption is split per channel, i.e. for every session & subscription fee, there will be 1 record.
- Any additional additional record in the presentation is welcomed.

Enjoy
BrightTV

What to do first?

Step 1

Micro-Planning
understand business

No Business Goals

Goal setting
Implementation
base

to the point
is more
information
the others

responsibility
to quantify
the situation
the situation
